PROFILE

Second-year Multiplatform Application Development (DAM) student, also completing a Master's in Big Data & AI. I build Java 17 and Spring Boot projects published on GitHub, including a personal finance REST API with automated tests. I bring 6+ years of logistics and international trade operations experience in Spain and Australia, coordinating teams, routes and KPIs under pressure, and I apply the same discipline to software: structure, results and solving real problems. **Seeking a software development internship (FCT) starting March 2027**, with a particular interest in banking and technology consulting.

TECHNICAL SKILLS

Languages: Java, SQL, Python, JavaScript, Kotlin
Backend: Spring Boot, Spring Data JPA, Hibernate, REST APIs, Swagger/OpenAPI
Testing: JUnit 5, Mockito, MockMvc
Data: MySQL, H2, JDBC, XML/XSD
Other: JavaFX, React (Vite), Git & GitHub, Maven, IntelliJ IDEA, Android Studio, UML

PROJECTS

GestionAp PRO — Flagship project

Java 17 · JavaFX · MySQL · JDBC · Maven | github.com/nelsongomezsa/gestionAPPRO

- Room-rental management app (rooms, tenants and contracts) built on a layered DAO / service / controller architecture.
- Plain JDBC over MySQL, XML data export validated against XSD, and complete technical documentation.

Finance Tracker API — Personal finance

Java 17 · Spring Boot 3 · JPA · JUnit 5 · Mockito · Swagger | github.com/nelsongomezsa/finance-tracker-api

- REST API to record income and expenses by category, with a monthly summary of balance and per-category breakdown.
- Unit tests for the service layer (Mockito) and web-layer tests (MockMvc), covering both happy paths and error cases.
- Input validation, centralised error handling and interactive documentation with Swagger (OpenAPI).

GestionAp API — REST backend

Java 17 · Spring Boot · Spring Data JPA | github.com/nelsongomezsa/gestionap-api

- Backend extension of the desktop app: REST API with full CRUD, layered architecture and input validation.

EDUCATION

Vocational Diploma in Multiplatform App Development (DAM) — thePower, Madrid	2025 – 2027 · ongoing
Master's in Big Data & AI — thePower	2025 – 2027 · ongoing
Master's in International Trade — Madrid Chamber of Commerce & Rey Juan Carlos Univ.	2023 – 2024
Vocational Diploma in Transport and Logistics — Escuela Profesional Javeriana	2020 – 2022

PROFESSIONAL EXPERIENCE

Civeo Australia — Coppabella, Queensland (Australia)

Jun 2025 – present

Procurement & Warehouse Coordinator (Feb 2026 – present) · Facilities Attendant (Jun 2025 – Jan 2026)

- Promoted to manage inventory, stock control, goods receiving and suppliers at a remote mining camp, working entirely in English.

CEVA Logistics — Import Operations Coordinator · Brisbane (Australia)

Dec 2024 – Jun 2025

- End-to-end management of sea and road imports: documentation, customs clearance and coordination with forwarders and shipping lines.

TGF — Madrid, Spain

Mar 2022 – Sep 2024

Logistics Department Lead (MediaMarkt account) · Traffic & Transport Coordinator (El Corte Inglés account)

- Built the MediaMarkt account's logistics department from scratch: route design, operating structure and daily planning.
- Coordinated 80–100 daily routes with KPI tracking, and ran the department single-handedly for 4 months.

SEDECAL — Procurement Coordinator · Algete (Madrid)

Jun 2021 – Mar 2022

Amazon — Supply Chain and warehouse operations · San Fernando de Henares (Madrid)

Jan 2020 – Dec 2021

LANGUAGES

Spanish: native · English: IELTS certified (2024), daily professional use in Australia since 2024
